

About Elisabeth Trostli

A native Brazilian, Elisabeth Trostli established herself as a successful free-lance commercial artist and surface designer in Providence, RI after graduating from the prestigious Rhode Island School of Design in '76. In 2011, Elisabeth Trostli relocated to Sarasota, Florida.

In this gorgeous cultural, cosmopolitan city, Elisabeth has truly unleashed her creativity. She works as a digital painter, bringing creative ideas and imaginings to life using modern tools of technology. State-of-the-art computer software is skillfully used to blend Elisabeth Trostli's own original hand-rendered illustrations, antique papers, exquisite embellishments, photography and geometrical fractals in a multi-layered unique collage format that is both decorative and meaningful.

Her digital paintings are available in a variety of sizes printed and mounted on gallery-wrapped canvas, and archival paper.

Custom orders are always welcome. (www.etrostli.com)
